

2008 Georgia Engineers Summer Conference

Marriott Savannah Riverfront, Savannah, Georgia

June 12 – 15, 2008

CALL FOR TOPICS / SPEAKERS

In preparation for the *2008 Georgia Engineers Summer Conference*, the planning committee is reaching out to members and friends of the engineering community to submit an idea or proposal for consideration as a session topic and/or presenter. Our goal is to develop a program that will provide an outstanding combination of networking opportunities, education sessions, tours and exhibits for approximately 500 attendees.

Continuing Education is the lifeblood for competent engineering practice and is required for license renewal in most states. Plans for a General Opening Session are underway with keynote remarks from leading industry leaders. There will be several concurrent educational sessions to appeal to a variety of technical disciplines and professional interests related to engineering business and management, mechanical/electrical/structural/buildings, and public works (environmental/transportation). The planning committee is seeking ideas for topics that are relevant to your practice/interest as well as speakers on these topics or others. Sessions are generally 2 hours long, although some sessions may extend to half-day or even all day if the subject matter requires it. Ideas and proposals are invited on any topic, but examples include topics leading to special certifications, construction codes, licensing, new state environmental policies/rules, all aspects of public works, HVAC design, energy, sustainability, project case studies, new business opportunities, leadership, project management, risk management, etc.

Proposed Topic: _____

Proposed Speaker: _____

Company/Organization: _____

Mailing Address: _____

City, State, Zip: _____

Phone: _____ E-Mail: _____

Duration of Session: _____ hours

Short description of topic content, or attach **short** description: (This abstract will be used in the Summer Conference Registration Brochure.)

Your Name: _____ E-Mail: _____

(Please provide your name if different from above should we have questions regarding your suggested topic or speaker)

Submit Suggestion for Topic or Proposal by December 14, 2007

Submit to: Gwen Brandon, Georgia Engineering Alliance, 233 Peachtree Street, Suite 7000, Atlanta, Georgia 30303
